

# iTRACK® Asset and Maintenance Management System Reporting

COMPREHENSIVE REPORTS FOR GREATER VISIBILITY INTO FLEET MAINTENANCE COSTS

As a built-in functionality of the iWAREHOUSE® iTRACK Asset and Maintenance Management System – and included with all iTRACK modules – the reporting feature of the iTRACK system lets you customize and analyze an array of data for invaluable insights into your fleet maintenance costs.

- + Customizable filters and parameters allow you to view exactly the information you want in the format you need.
- + Easily isolate avoidable repairs from regular repairs.
- + Drill down from enterprise-wide data to individual facilities, assets, and service technicians—all with a few clicks.

*Intuitive, interactive reports—accessible through the i WAREHOUSE GATEWAY™—can help you identify inefficiencies and make more informed decisions about maintaining, repairing, and upgrading your fleet and other material handling equipment.*

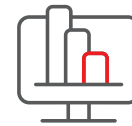

## EXTENSIVE REPORTING CAPABILITIES

- + Cost Reports
- + Dispatch Reports
- + Comprehensive Fixed Price Maintenance (CFPM) Reports
- + Asset Reports
- + Maintenance Reports
- 
- + Trend Reports

### IMPLEMENT QUICKLY AND EASILY

Get the insights you need with no required hardware.

### LEVERAGE YOUR EXISTING DATA

Generate reports using information from service requests and work orders.

### IDENTIFY SERVICE/ MAINTENANCE TRENDS

Make more informed strategic decisions on asset utilization.

# iTRACK® Asset and Maintenance Management System Reporting

COMPREHENSIVE REPORTS FOR GREATER VISIBILITY INTO FLEET MAINTENANCE COSTS

## iTRACK ASSET AND MAINTENANCE MANAGEMENT SYSTEM:

Reporting Features and Visibility throughout Every Step of the Service Cycle

## OPTIONAL MODULES FOR OPTIMUM IMPACT

The iTRACK Asset and Maintenance Management System offers integrated, add-on modules—with enhanced capabilities and reporting functionality—that work together to help control costs at every stage of the service cycle.

The **iTRACK Dispatch module** can help keep your trucks on the floor by letting you remotely request service, track technician activity, and view reports—from any vendor—anywhere, anytime.

The **iTRACK Single-Source Invoicing** module simplifies invoice tracking, reduces processing time, and cuts administrative costs by providing consolidated electronic invoices for all your managed assets.

## OPTIMIZE YOUR OPERATION WITH iWAREHOUSE INTELLIGENT SOLUTIONS

While the iTRACK system offers the ideal standalone solution for tracking maintenance costs, it can also be combined with other solutions in the iWAREHOUSE® suite to enhance visibility, efficiency, and productivity across your operation.

- + iWAREHOUSE® Telematics Fleet Management System
- + iBATTERY® Battery Monitoring Solutions
- + iWAREHOUSE® Labor Management System

See how the iTRACK Asset and Maintenance Management System can assist in lowering your operating costs by providing you a detailed understanding of the performance and the true costs of maintaining your entire fleet.
