iTRACK®
Single-Source Invoicing Module

SAVE TIME AND MONEY WITH A STREAMLINED INVOICING MODULE

When it costs $25, on average, to process and pay each invoice that comes in the door, businesses need solutions to consolidate the number of bills they receive to save time and money.

Part of the iWAREHOUSE® iTRACK Asset and Maintenance Management System, the iTRACK Single-Source Invoicing module can reduce administrative costs and overhead by consolidating the number of Raymond Solutions & Support Center service and rental invoices you receive and reduce the time required to handle and process them.

YOUR iTRACK SINGLE-SOURCE INVOICING ADVANTAGE:

+ Simplifies invoice tracking by providing consolidated electronic invoices for all your managed assets and showing weekly, bi-weekly, or monthly activity.

+ No limits on the number of sites or assets makes the module ideal for businesses with large geographic footprints.

+ Invoice details and cost reports are accessible 24/7 from any web-enabled device through the iWAREHOUSE GATEWAY™ for easier management.

CUSTOMIZED INVOICES
Break out invoices by site, type of truck, purchase order number, or put it all together in one—with no limit on the number of sites or assets you include.
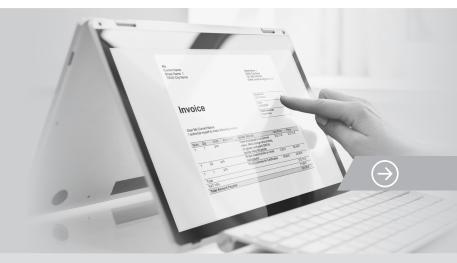

ACCURATE CHARGES
All service claims and invoices are processed by a Raymond Fleet Analyst for accuracy.

EXPENSES AT A GLANCE
Quickly view expense details for greater accuracy and faster, easier reconciliation.

The iTRACK Single-Source Invoicing module offers a more convenient, efficient, and cost-efficient solution that can dramatically impact your bottom line.

iTRACK®
Single-Source Invoicing Module

SAVE TIME AND MONEY WITH A STREAMLINED INVOICING MODULE

MAXIMIZE YOUR iTRACK SOLUTION

In addition to the Single-Source Invoicing module, the iTRACK® Asset and Maintenance Management System also offers an optional Dispatch module that can help keep your trucks up and running by letting you request service, track technicians, and view reports remotely:

+ Request service quick and easily from any web-enabled device and view details and progress on any dispatch.

+ Monitor the performance of service providers for greater accountability and easier vendor management.

+ Additional reporting and visibility in asset downtime, work order status and asset availability.

OPTIMIZE YOUR OPERATION WITH iWAREHOUSE INTELLIGENT SOLUTIONS

While the iTRACK Asset and Maintenance Management System offers the ideal solution for tracking and reducing maintenance costs, it can also be integrated with other solutions in the iWAREHOUSE® suite of technologies to further enhance visibility, efficiency, and productivity across your operation.

+ iWAREHOUSE® Telematics Fleet Management System
+ iBATTERY® Battery Monitoring Solutions
+ iWAREHOUSE® Labor Management System

See how the iTRACK Single-Source Invoicing module can help reduce administrative costs and overhead by consolidating your Raymond service and rental invoices.
